## Customized Housing

The housing dimensions of the Surgical Panel can be individually adapted to the conditions in the operating room. In addition, the housing color can be selected from the RAL color palette depending on the color concept on site.

## Wide Ranging Monitor Options

The Surgical Panel are available in a wide range of screen diagonals for flexibly meeting local application requirements. The option to combine a viewing unit with a 24" Full HD HIS workstation also offers a full viewing environment while saving on space.

## Flexible IT and Video Management

The modular interior design allows customer-specific configurations and facilitates access for service and maintenance.

## Accessories and Connectivity

The Surgical Panel have front USB ports as a standard for connecting peripheral devices. There is also the option of integrating additional interfaces on the front frame. These can be individually connected to the inputs available in the video management.

## OR Integration and Cleanability

With its flat surface, the Surgical Panel can be completely sealed in the front and integrated in the OR wall, ensuring safety and simple cleaning and disinfection procedures. With intelligent heat distribution over the front surface, the units do not require specialized ventilation systems.
